Local Option.

The election for county local option is on next Tuesday, September 29. The question is, "Shall the sale of intoxicating liquors as a beverage be prohibited?" through out Hocking county. There are 28 saloons in this county, and they are located in Logan, Murray City and Laurelville. The temperance people seek to dispense with the saloons in these towns and in the county. They seek to close them up, and put them out of business at least for three years, after which time the saloon men may petition for another election. If the people, by their votes next Tuesday, permit the saloon to remain, no petition can be circulated against them again, for three years, except under other local option laws, such as township or town.

The ground is being covered by enthusiasts on both sides, and the contest is waxing warm.

In the premises as a newspaper, we seek but this, that all parties will keep peaceful and accept the verdict of the people honestly and fairly, and abide thereby. In this country every man has a right to his opinions, and if they are adverse to that of his neighbor he must accord him the same right to his views that he would expect from him. There are none of us perfect. Our opinions may be wrong, or they may be right. Whether right or wrong, we have a right to them, and to not be condemned because we so believe.

What we might say for or against the proposition of county local option, might not influence a vote either way, and but widen the breach of social intercourse now already at a tension. We believe the campaign is made and has been made for weeks; that the voters of Hocking county have made up their minds long ere this, whether they will vote for the saloons or against them. Let there be harsh no words spoken. We believe in the sovereignty of the people, and when the people speak, it is enough. Wet or dry, we accept the verdict, and the world moves on.

Ever since man has been on the earth or ever since the Buzzard has been known to exist it has been given up that nothing was foul or rank enough to turn Mr. Buzzard's stomach, but the old fellow is quite sick and has been vomiting quite frequent recently, and upon investigation it has been discovered that the combine formed between Taft-Hinicka-Cox and Harriman is too sickening for Mr. Buzzard. Whenever any man will stand at Akron and denounce a man like Taft did Cox and then allow him to go as a delegate and help to nominate him for President and call upon him for his help to elect himself to office, knowing that Cox is the most wicked and corrupt politician of the state and is at the head of the Hamilton county breweries, it either proves to the public that Taft was not sincere at Akron or else he has gone back on his own words. My what a smell, let's all throw up.
